The Age-Friendly Best Practices for Business and Service Providers E-Learning Course

AgeFriendlySarniaLambton.ca is a website with a comprehensive list of community, social, and health care services for people through all ages of life and abilities within Sarnia and Lambton County. It includes helpful information and resources, local events, tools to find a healthcare provider, and supports to help residents thrive.

Service listings have all the information you need about a service at your fingertips such as how to apply, eligibility, any fees, languages offered, the area it serves, accessibility, website links, and contact information.

How are listings added and updated?

Age-Friendly draws service information from the https://www.eriestclairhealthline.ca/ which follows strict policies, so you can trust the information that you find is accurate and up to date.

Ensure your service listing is up-to- date, remember to:

- Set reminders to review and update your organization's listings regularly.
- Verify that the contact information, eligibility criteria, hours and other key information are current.
- Make your service easier to find by including keywords clients may use in the search bar.
- Consider a separate listing from your main organizations' if the program or service has any of the following:
  - Different contact information
  - A separate location
  - Different eligibility criteria
  - Different hours

How to edit an existing listing, add a new service listing or post an event

Visit the "Frequently Asked Questions" page to access the "Suggest an Edit" page

From the suggest an edit page you can:

- Edit a Service Profile
- Suggest a New Service or Organization Listing
- Submit a local Event

*If you have any further questions, please email usersupport@thehealthline.ca

Service providers are encouraged to make updates whenever they need and prompted annually to update their information. All updates and listings are reviewed by Healthline to confirm information before it is published to the live site.

Keeping digital service listings up to date makes navigation easier for all!
