

Primary Care:

Your primary care provider understands your physical and mental health care needs best. If you are experiencing challenges with mental health or substance use, speak to your primary care provider to learn more about local supports/resources and possible treatment options available to you.

Additional support services are also available for rostered patients at Twin Bridges Nurse Practitioner-Led Clinic, Rapids Family Health Team, Central Lambton Family Health Team, North Lambton Community Health Centre, and Grand Bend Community Health Centre.

Community health centres in Aamjiwnaang, Walpole Island, and Kettle & Stony Point also have resources available for their community members.
